**About Courses at CSLGC currently Accredited by UCSL**

We purposely do not expose students to this type of overview until someone expresses interests in growth the educational requirements for developing a deeper practitioner consciousness or perhaps pursue Professional Practitioner studies.

One of our practitioners will give you a personal overview whenever you ask for an explanation of how a particular course fits into your plan to become a practitioner.

You can find this overview on our website and on the reference shelf in the bookstore.  
Also in the bookstore, you can find bulletin inserts that announce upcoming courses at least twice a year.  
Certificated courses are always taught by Barley, Dee, Gloria or Rev Linda.

Posted dates are easily changed.  
When at least six people express interest in taking a particular class, we will teach it.
