*The Jesus Story – Questioning the Unquestionable*

International mystic–scholar Dale Allen Hoffman brings the words of Yeshua (Jesus) to life in the Aramaic language in which they were first spoken, offering a living, breathing vision of many of His most misunderstood teachings. Through clear interpretations in English, and with prayer, breath work and vocal intonations, Dale shares stunning insights from ancient sources including Aramaic, Greek, Hebrew and Coptic manuscripts about the seemingly “miraculous” capacity of the human mind, our inherent Divinity and the awakening consciousness of humanity.

“When Dale entered our facility, *I KNEW*. I knew because I felt the Presence – the One Presence and the One Power flowing in and through him freely. Our congregation was moved to a place beyond words; in fact they are *still* talking about it. If he hadn’t spoken a word, *his Presence still would have changed our lives.*” — Rev. Denise M. Yeargin; Unity of Music City – Nashville, TN
